

Celestial Understanding

Your soul is God's Created connection for Him to live and experience life through ALL of His Creation.

This is your opportunity from God to live life as your own through His-your experiences. How can your spirit determine a truth without living through those experiences without determination by hearsay?

The consciousness of God is living through you. Now how will you live your life knowing your experiences are His experiences?

Creation came from within God, so how can God NOT experience the love projected by and through His Creation?

It's not any different than you and your family on vacation and seeing that there is enjoyment every single moment. This mindset gives a whole new meaning on how to live. If your not sure, refer to the Scriptures.

How can you know anything to be a truth without the experience in a matter?

Only love-truth can exist in the spiritual world. So how much love will you live for yourself and God?

Heaven is as close as you are to love in life.
